

The Wollaston Child Care Center Agreement Statement

A member of the Administrative Team has explained the Wollaston Child Care Center Family and Policy Handbooks to me. I have been given a copy of these handbooks to keep as a reference for my own use. I understand the contents and agree to abide by these policies as a participant in this program.

This agreement statement must be signed and returned with the registration forms prior to your child's first day of participation.

Visitor Information

The WCCC may choose to allow students from local colleges and high schools to visit, observe, and/or student teach in our classrooms. During this time the students will take notes on what is observed, interact with the children, and inquire about the program. All such individuals will receive a background record check and complete orientation to our center.

Other individuals that may visit our classrooms include early intervention therapists working with specific children in the group and Assessors visiting as part of the National Association for the Education of Young Children (NAEYC) accreditation process. In addition, from time to time we invite consultants in to observe classrooms and provide technical assistance to support quality early childhood programming.

We believe that these visits enhance the quality of early education and care our children receive. A regular member of our teaching staff is always present during these observations.

As always, feel free to contact us with any questions or concerns.
