Ages & Stages Questionnaire

The Ages and Stages Questionnaire (ASQ) developmental screening provides families the opportunity to share and learn about their child's development, to celebrate their growth and to address any questions or concerns they may have about what "typical development" looks like. We would love for you to complete an Ages and Stages Questionnaire. This helps our educators learn a bit more about your child's development and provides valuable insights on what you see at home. The ASQ is designed to be filled out by families, it is user-friendly, and should only take about 10 minutes to complete. It can be filled out on paper or online. Please let us know if you would like a paper version of the screening tool. Here is the web address to complete the screening process:
